{ Database Design & Modeling }

Somewhere sensible to keep your data

A structure that matches how the business actually works, so the questions you need answered later are still possible to ask.

Still working out what you need?

Tell us what is going wrong, or what you are trying to build. We will tell you what it would take, roughly what it would cost, and whether we are the right people for it.

From 1,400 DKK an hour, excluding VAT — and less per hour on a longer booking.

Turn the service into a result

Make “Database Design & Modeling” serve a business outcome. We can connect the technical work to the users, operations and decisions it needs to support. A structure that matches how the business actually works, so the questions you need answered later are still possible to ask.

Examine the relevant work

Use the related work on this page to examine our approach. Ask about the tradeoffs and the conditions behind each result. Built Stripe and in-app purchase entitlements — 11 tables deciding who may see what

Built Stripe and in-app purchase entitlements Get in touch →

Built Stripe and in-app purchase entitlements

Built the payments and entitlements layer — Stripe alongside Apple and Google in-app purchase — gating the directory, search and export through an 11-table access model checked on the server.

Moved slow work onto a River job queue

Moved slow work off the request path onto a River job queue — 15 worker modules, 8 scheduled tasks and 20 pg_cron jobs — so a request returns while the work behind it carries on.

Looking for Database Design & Modeling?

Use the linked work to judge relevant experience. Tell us what you need to build; we can discuss the scope, delivery approach and handover.
