{ Full-Stack Product Development }

A working product, end to end

One team taking an idea from a sketch to something your customers can log into, instead of handing it between three suppliers.

Still working out what you need?

Tell us what is going wrong, or what you are trying to build. We will tell you what it would take, roughly what it would cost, and whether we are the right people for it.

From 1,400 DKK an hour, excluding VAT — and less per hour on a longer booking.

Turn the service into a result

Make “Full-Stack Product Development” serve a business outcome. We can connect the technical work to the users, operations and decisions it needs to support. One team taking an idea from a sketch to something your customers can log into, instead of handing it between three suppliers.

Examine the relevant work

Use the related work on this page to examine our approach. Ask about the tradeoffs and the conditions behind each result. A mapping product, carried end to end — 2 years of infrastructure, data and map-application work

A mapping product, carried end to end Get in touch →

A mapping product, carried end to end

Architected, developed and supported infrastructure, data processing and a map application over 2 years, covering both software delivery and operational maintenance.

Built company ownership claims and adjudication

Built company ownership claims end to end — a user claims a company, an administrator adjudicates, and an approval rewrites the authorization graph that decides who is allowed to edit what.

Looking for Full-Stack Product Development?

Use the linked work to judge relevant experience. Tell us what you need to build; we can discuss the scope, delivery approach and handover.
